DEFENDANT'S Exhibit # 5  
 Date 2/9/00 Judge CG

FS Lab #T97-6363

Your Case #: - - -

Victim(s): MOORE-BOSKO, Michelle

Suspect(s): WILLIAMS, Danial J.  
 DICK, Joseph  
 WILSON, Eric

Evidence Submitted By: Ronald L. Chupik

Date Received: 04/10/98

Item 19 Known Blood Sample from Eric Wilson

**RESULTS:**

Item 19 Human deoxyribonucleic acid (DNA) was isolated from the known blood sample from E. Wilson. The sample was amplified and typed at the HLA DQA1 locus and in the PM system (which includes the LDLR, GYPA, HBGG, D7S8, and GC loci). Refer to the table for typing results.

**SUMMARY OF HLA DQA1 AND PM TYPING RESULTS**

ITEM	DESCRIPTION	DQA1	LDLR	GYPA	HBGG	D7S8	GC
19	E. Wilson's blood	1.1, 4.1	AB	BB	BB	AB	AB

**CONCLUSIONS:**

Based on the above results and the results presented in my Certificate of Analysis dated March 26, 1998, E. Wilson (Item 19) is eliminated as a possible contributor of the genetic material detected in the sperm and non-sperm fractions of the blanket stain (Item 1A), and the swabs from the knife (Item 16A). E. Wilson is also eliminated as a possible co-contributor to the mixtures of genetic material detected in the non-sperm fraction of stain 1 from D. Williams' underpants (Item 11C1), and from the left hand fingernail clippings from M. Moore-Bosko (Item 14F).

Your Case # - - -  
June 10, 1998

No further analysis will be conducted on Item 19 or on the evidence listed in my March 26, 1998 Certificate of Analysis at this time, per instructions received from Asst. Commonwealth's Attorney D. J. Hansen on 6-2-98.

The results of other requested examinations will be reported separately.

The evidence will be available at the Tidewater Laboratory after you have received the results of all requested examinations.

Attest:

I certify that I performed the above analysis or examination as an employee of and in a laboratory operated by the Division of Forensic Science, and that the above is an accurate record of the results of that analysis or examination.
